

Off-grid Solar Power System

Model No.: GPSS-1500W

- ♦5~6 hours operating time daily
- ◆2 system autonomy days
- ◆ Ease of installation and operation
- ◆Long life span
- ◆Maintenance free
- Energy Saving

This 1.5KW solar power system is specially designed to satisfy with the electricity needs of residential or

commercial application, which could be built either on the rooftop or on the ground as to produce and supply independent, continuous as well as safe and clean energy for electronical appliances. Which is a perfect turnkey solution for you to exploit solar energy and also save the electricity bill. Daily electricity output could reach to 6~7.5kwh.

Technical Specification

Maximum Power	1500W		
Rated Voltage	48Vdc		
Rated Current	31A		
Output Voltage	220Vac/110Vac		
Output Frequency	50Hz/60Hz		
Autonomous days	2		
System Efficiency	90%		
Solar Panel	8*185W Mono or polycrystalline silicon		
Solar Parier	module		
Solar Controller	48V30A Intelligent solar controller		
Solar Inverter	2kVA Pure sine wave inverter		
Pattory(entional)	8*12V200Ah Maintenance-free Gel or		
Battery(optional)	AGM battery		
Cable	20m 2*6mm2 copper wire		
System Size	0.8 cbm		
System Weight	600 kgs		
Container Capacity (20ft)	30 sets
